No bidding required | No auctions to deal with | No travelling required | Nationwide delivery/collection will be available at your finger tips...

Cars from £500 to Millions!

## Our Business Model:

Working from home or anywhere you chose! You will be able to purchase these vehicles direct at trade prices from just £500, whenever you wish. No bidding is required or complicated auctions to deal with, just say you want it and follow our instructions.

We offer detailed instructions and on-going support and guidance, so no experience is required, but the love of cars is helpful.

You can request a walk-around video of the vehicle you are interested in, this saves time travelling, and provided it's as described, can be delivered to you within days. Or, simply say you want the vehicle, provided its as described, and if its not too far from you (Cars are from all around the UK) you can go and view the car and, if you are happy, you can purchase it there and then.

Cars are available everyday from us and other dealers, so as and when you are ready, simply visit our app and check out what's on offer.

If you are looking for a certain type of vehicle, simply message us direct as a member, tells us what you want and we'll search our massive data base to find that vehicle...

## Testimonial from one of our members:

Thank you guys so much! My life has changed so much. I was lost and didn't know what I was going to do after losing my job. You have helped me into a business I love and I'm making some serious money.

I sold a Nissan Elgrand recently for £10,250 after only paying £6,700 for it, making a fantastic profit of £3,550. My total this month is £8,870 so far and still a week to go.

I will highly recommend you guys anytime, my future is set now and I'm a better person for it.

Don't have the funds to buy cars? Broker our cars, its all the same to us, as we make our money from selling our cars! So, no on-going fees, whatsoever!

You can broker, (Sell our cars), if you don't have the funds or don't wish to purchase them, yourself! Ideally, do both!

So, apart from the joining fee, there are no other costs involved.

You'll have access to our list of cars and other items at the price we need for them. You simply add on your required mark up. So, if we are asking £5000 trade money, you advertise that vehicle at whatever you wish. We can guide you on the right price for a quick sale. As a broker, you can easily broker 5 cars in a day and make thousands. Imagine if you sold a few of our more expensive cars... Thousands can be made with just one sale. We offer the following:

- Trade cars from £500 | Super-Cars | Hyper-Cars | Hi-End Watches | Motorcycles

You'll have enough details on our app that's needed to find a potential buyer and full instructions on how to do this using Facebook Market Place and other sites to sell the vehicles to start with. Don't forget family and friends to help spread the word and visit local garages as they are always looking for new stock.

Simply offer our cars, super and hyper-cars, hi end watches, even motorbikes and build up your contacts to create your own, successful brokerage. As your list of buyers grows, simply add them to your own WhatsApp and list our vehicles for everyone to see at once, and watch the cars sell themselves.

When you get a customer that's interested, just pass the enquiry to us and we do the rest for you!

All commission due are paid out weekly.

# We even include our Smart Repair video's

Smart Repair

If you don't mind getting your hands dirty and enjoy the hands on approach, then our Smart Repair is for you! It's a great addition and totally free as part of our package.

Most second hand cars will have cosmetic issues, alloy wheel refurbishment, smart paint repair, leather repair, headlight restoration, plastic trim repair and even brake calliper painting is very popular.

This way you'll be able to make those repairs yourself, easily and this will save you a small fortune paying others to do it for you! Most cars will need their wheels touching up and a few paint scratches, etc. It will save you on average £300-£400 per vehicle doing this yourself, which means an extra £300-£400 in your pocket.

Also, why not repair your family and friends cars in-between selling your own cars and make up-to £100 per hour. A free advert on Facebook works a treat!

We'll supply full details in video form for easy learning and before long, you'll be a pro! Practice your new skills on your own car or family and friends...

## Optional Website: £249 (Not included in our package)

Smart Repair

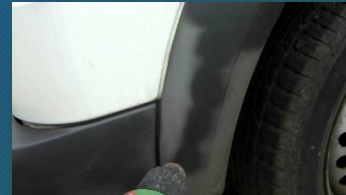

Option extra: If you are thinking of doing the Smart Repairs, it's a good idea to have a professional website to promote your services and show people how professional you are.

- ❑ Fully designed website to promote your services, professionally. Domain name included. £249

Includes;

Local SEO on Google to help people find you and 30 days advertising to at least 3,000 people to boost your site and help give you the best start possible.

# Questions & Answers

(Q) How can you offer this service, when your competitors charge thousands of pounds?

(A) We make our money from selling our own cars - not by signing up members. Our joining fees are just to cover our set-up costs and to encourage genuine members. The more cars we sell and the more profit we all make.

(Q) How many cars will I have to chose from?

(A) We will always have cars to offer you, more than you will ever buy - access to literally hundreds per week via us and other member traders around the UK.

(Q) I don't know much about cars?

(A) That's where we come in. Over 30 years experience at your finger tips, so do not worry about that. We do the hard part by obtaining the vehicles for you. The love of cars is all you need.

(Q) How long before I'm up and running?

(A) Literally 24 hrs. We can even hand pick a car to offer you, when you join! One that's a nice and easy 1<sup>st</sup> car to help you get off to a good start. Let's get that 1<sup>st</sup> sale under your belt to boost your confidence and your wallet!

(Q) Do I have to buy the cars?

(A) No, you can just broker (Sell) our cars if the funds to buy are not available or, for whatever reason, you don't wish to actually buy our cars. Its up to you. Buy one car, no cars or 10 cars, its your decision. There is no pressure from us.

# Questions & Answers con't

- (Q) Is this an actual franchise business or are you just offering a package where someone can have access to your range of vehicle stock and other benefits as part of the package?
- (A) This is a business opportunity but yet, very much like a franchise, as we offer full back up and support but without the high joining costs and there are no on-goings fees whatsoever!
- (Q) The £695 fee to join - is this a one off or yearly fee?
- (A) It's a one of fee! We make our on-going profits from selling cars to our members or, our members brokering our cars, not from charging on-going fees.
- (Q) Am I correct in assuming you are **not** asking for a yearly franchise fee and commission per vehicle I sell?
- (A) Yes, you are correct, as above, just a one off joining fee and we make our money selling cars. Whatever you sell the car for, is all yours.
- (Q) Do I have to register my self as a car trader to buy a car at trade price from you?
- (A) No, not if you purchase from us but some of the contacts we supply you, may ask for a copy of your Trader's Insurance.
